I have read the attached Informed Consent document and I give permission to Tesis Labs to perform genetic testing as described. I also give permission for my specimen and clinical information to be used in de-identified studies at Tesis Labs and for publication, if appropriate. My name or other personal identifying information will not be used in or linked to the results of any studies and publications. More information is available at www.tesislabs.com

- Opt out of research
- Check this box if you are a New York state resident and give permission for Tesis Labs to retain any remaining sample longer than 60 days after the completion of testing.

I attest that the patient has received and read the Tesis Labs Informed Consent document, or has had it read to him or her, and that I have fully informed the patient about the purpose, capabilities, and limitations of the ordered test. The patient has voluntarily given his or her full consent for the ordered test and a signed copy of this consent is available on file. Any Tesis Labs Informed Consent that the patient agrees to at a later date will supersede and replace this Informed Consent.

STATEMENT OF MEDICAL NECESSITY
By signing below, I, the ordering Medical Provider, confirm that testing is medically necessary and that test results may impact medical management for the patient.

Merged Couple Report Please note: • If not signed by the partner, separate reports will be issued. • By signing, the partner will be consenting to genetic testing as described above, and authorizing the release of their results to the patient's healthcare provider, which may include sensitive medical information. The results will become part of the patient's medical record, which is available to the patient's physician and other covered entities. • Merged couples reports can only be produced for patients and partners that have ordered the same test. If tests do not match individual reports will be produced. • Partner's sample is not needed if they have been previously tested at Tesis and has a Tesis Accession ID. This can be found on the top of a report. • Please note that if the partner's sample is not sent together and no Tesis Accession ID is specified, individual reports will be produced. It is possible to call Tesis and obtain the Tesis AccessionID of recently submitted tests that have not been reported at the time of a partner requisition.
